

Maria C. Moreno-Bondi

Professor at the Department of Analytical Chemistry of UCM

MARIA C. MORENO-BONDI received her Ph.D. in analytical chemistry at Complutense University (UCM) of Madrid (Spain) in 1990. In 2008 she was promoted to full professor at the Department of Analytical Chemistry of UCM. She has received the Young Researcher's Award from the Spanish Society of Analytical Chemistry in 1993 and the Research Award in Analytical Chemistry from the Royal Spanish Society of Chemistry in 2010. Her research interests lie in the development of optical chemical sensors and biosensors and their applications to environmental and food analysis as well as on the development of molecularly imprinted polymers for sensing and separation purposes. She is currently the Head of the Analytical Chemistry Department at UCM, President of the Society of Applied Spectroscopy and co-leader of the Chemical Optosensors and Applied Photochemistry Group (GSOLFA).
