

Miguel Valcárcel

Full Professor of Analytical Chemistry at the University of Córdoba

MIGUEL VALCÁRCCEL has been Full Professor of Analytical Chemistry at the University of Córdoba since 1976 being his master research lines Analytical Nanoscience and Nanotechnology and automatization/miniaturization/quality of (bio)chemical measurement processes. He is the author and co-author of more than 900 scientific articles, eight monographs, ten textbooks and twenty chapters of books. He has been the coordinator of 25 Spanish scientific research projects and 14 of international nature, and of 12 contracts with private firms, and has promoted a spin-off devoted to nanotechnology. Professor Valcárcel has been co-supervisor of 75 doctoral theses and invited lecturer at 70 international meetings. He is the recipient of scientific national (e.g. Award in Chemistry in Spain, 2005) and international (e.g. Robert Boyle Medal of the RSC, 2004) prizes as well as Doctor Honoris Causa by the University of Valencia (Spain).
